**Subject:** In support of

my name is graciela valdez and I live in Kalamazoo MI.

Very quickly I want to let you know that I value the economic, social, and cultural contributions of refugees to my local community and I urge all state and local officials to support refugee resettlement.

I am quite familiar with the robust security screening process for refugees that takes place, and I am very concerned about this attempt to create unfounded fear of a vulnerable group of people.

As a constituent who votes, please note my sentiments on this issue.

Sincerely,

graciela valdez
